PROJECTS

GreenPlant Landscaping

A functioning website for a El Paso based landscaping company. Group-mates and I implemented a website that allows customers to fill out a contact form, find operating hours and interact with two third-party API's .

Technologies Used

- HTML
- CSS
- Bulma
- JavaScript
- Third party API
- jQuery

Day Planner

A simple work-day schedule application that updates in real time. Users can add their tasks and cross them off as they complete them

Technologies Used

- HTML
- CSS
- Bootstrap
- JavaScript
- jQuery
- Moment.js

Password Generator

A password generator application that will randomly generate a secure and complex password. Users will answer prompts that will determine the complexity of their password.

Technologies Used

- HTML
- CSS
- JavaScript
